Subject: RE FOIA 1160095

Lauren,

I'm writing as a follow up to the FBI's 12/15/11 letter RE FOIA 1160095 today. It was helpful, but lacked specificity required by my FOIA request in two important respects.

First, I need to know exactly which file numbers "were not in their expected location and could not be located." Simply telling me that some files were not found, without saying which ones, does not satisfy my request

Second, I need the date of destruction for each of the files that "were destroyed between July 26, 1976 and November 27, 2007." Simply giving me a 31 year window in which the records were destroyed does not satisfy my request.

If you could email me this information, I would appreciate it.

Thank you for your assistance,

Trevor Griffey
